You play as the british love child of Albert Einstein and Willy Wonka. After presumably having taken a copious amount of recreational drugs you, your two gun loving buddies and your chicken come up with the greatest idea of all time. " Let's get inside a hollow cannonball with a limited amount of oxygen and fire ourselves straight into the moon, I bet we'll find some gnarly moon people" said the chicken. And it was so.

I'm incredibly invested in the narrative so far and the intense gameplay made for an incredible experience not to mention the otherworldly brilliance of the graphics and sound design. I give this a 10/10. I can't wait for the upcoming sequel that was announced at this year's E3, there's been rumours that you'll finally be able to play as the chicken in the DLC.. love the game so far, with flightstick. so far only at level 2 but i love the way it handles and how it sounds. only downside is that i don't know when i am locking on to enemies.. I can't believe I didn't write a review of this game when I played it a handful of months ago. I loved it, it was free, and the title alone sold me on playing it. Well worth anyone's time to AT LEAST try it.

If you're a fan of adventure games, give it a go. It's completely free, and the lore is fascinating. Art style is singular and superb. Very interesting cast of characters.. A lot of fun to play, definitely worth the buy if your into 2d games. Gives off the nostalgia feel of playing smw. :). I bought the season pass because I got the game on sale for \$15. This expansion is hardly noticeable, it adds variation to an already diverse roster and small time quickly finished quests in an already heavily marked and messy map of quests. Worth \$5, maybe \$10 if you love the game. \$15 should buy both tribes wait for a sale. Best \$3.74 I ever spent(on a game). Off-Road Drive > Spintires. The only thing Spintires has going for it is the mud simulation(which is 100x better). Other than that though, this game is the real "Ultimate Off-Road Driving Experience". I'm, also, so glad I waited to purchase it until after being so disappointed by Spintires. Helped ease the pain a bit. Just wish someone would hurry up and make Off-Road Drive 2.. You can pick up back the shurikens that you throw Such realism.. 11/10 Wow much. Would be a decent game of the genre if it had a decent vocabulary. It does not recognize many basic english words.

I found the lack of instructions frustrating when I first played this game a few days back. But the new version released yesterday is a great improvement. I'm happy I contributed money to this game as the developer is clearly making progress. I look forward to seeing where it goes.. Screams and laughter sums up the experience so far with this game.

That's a good thing.

As the other reviews have said, it's fairly.

There's bound to be bugs right now, but it's nothing too big that'll hinder your overall experience.

I recommened playing with a group of friends to make it more enjoyable!. Have been playing this game for a few hours and there is no way to balance the budget.

First, no matter what you do, there is always more cash leaving than coming in. You can check the demand, produce based on demand, adjust price to off set production costs and allow for a profit, but there is still negative monthly cashflow.

9 products in total, all balanced based on demand, production costs, transport cost, and i even did the math to make a profit on expenses like research, but still negative.

Fix this\u2665\u2665\u2665\u2665\u2665. Excellent game. Good game mechanics. Had fun!

I would have prefer more sophisticated graphics but it does the trick.

Very good immersion.

thx for the hard work!

:). A very easy way to collect Achievements. In my oppinion it totally worths its prise! 1€ for 5000 Achievements. ^^. Old but Gold :D
