About This Game

Khaos Wind is a fps survival horror game in the works by JT Mitchell (Dos Gatitos Games). Khaos Wind takes place in deep space, on board a colonization/research vessel roughly the size of a small city. A fatal error in the food manufacturing unit caused mass starvation sparking an all out class war on board the ship. Whats worse in the midst of all the chaos an ancient evil was unleashed upon the ship causing the crew to go insane.

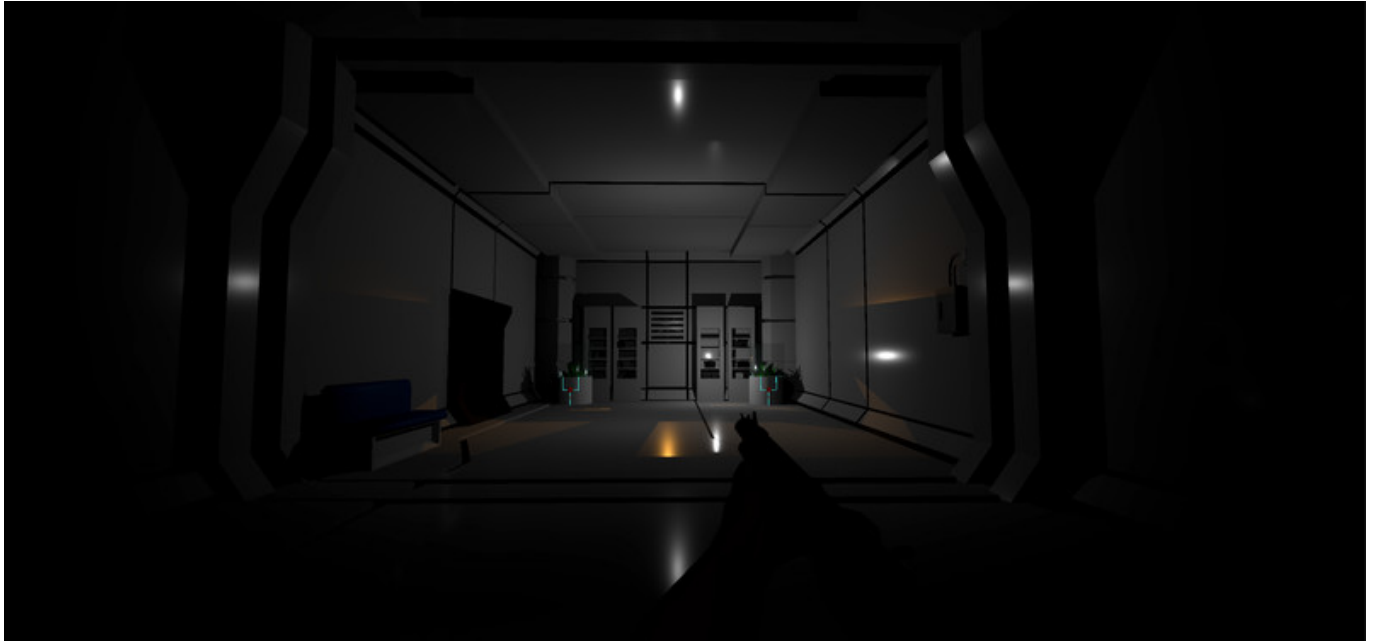

Anticipated features include a mid length story mode in which the player has to chose which characters they will help as they work there way toward finding out what unleashed the evil. As well as lots of Unlockable content like survival maps and various challenging game modes.

Title: Khaos Wind
Genre: Action, Indie
